INTERNATIONAL

MAPPING OF FUNDING OPPORTUNITIES FOR INTERNATIONAL CULTURAL EXCHANGE IN ASIA MOBILITY FUNDING GUIDE

This *Mobility Funding Guide* is a concrete output of the mapping of funding opportunities for international exchange in 19 countries in Asia. It was first released on culture360.asef.org in September 2012 by the Asia-Europe Foundation (ASEF) with the cooperation of Arts Network Asia (ANA), Korea Arts Management Service (KAMS), Japan Center, Pacific Basin Arts Communication (PARC), and Tokyo Performing Arts Market (TPAM).

The guide follows the existing model of the *Guide to funding opportunities for the international mobility of artists and culture professionals in Europe*ⁱ, produced by the Foundation Interarts, On the Move and PRACTICS.

Its main objectives are to make available online the existing information on funding that supports the international mobility of artists and cultural operators in Asia and to provide input to funders on how to fill in the existing funding gaps for international cultural exchange in Asia.

In this edition “open to any nationality”, you can find funding opportunities by country in most artistic and cultural disciplines. The guide lists national resources when available, as well as regional and international sources of funding - be they public or private. Only regular opportunities accessible online are listed. Not included are: funds for which information is only available offline, funds that are not based on open calls, and ad hoc or short-term funding.

This guide is meant as a reference for **many artists and practitioners that can only rely on international funding sources, based outside their own country**. Anyone interested in being mobile for his/her professional artistic and cultural development is also welcome to use this document.

For a full overview of the methodology and scope of the research, please refer to the publication’s *General Introduction*ⁱ.

This guide is an attempt to gather all the resources in one document and is by no means complete. As we aim to update it on a regular basis through further research and input from the field, your feedback is crucial.

You can send your feedback to: funding@culture360.org

If you would like to know more about this initiative or collaborate with us please contact: Valentina Riccardi at valentina.riccardi@asef.org

For regular and one-off calls for projects, collaborations and other opportunities to fund international cultural exchange, we invite you to subscribe to the culture360.asef.org newsletter.

This guide was last updated in July 2014 by On the Move, the cultural mobility information network. <http://on-the-move.org>

The mentions Public (Pub.), Private (Pri.) and Public-Private (PP) have been added next to the funding schemes to highlight the source(s) of the said funding.

You are welcome to share this publication on your website or blog. When you share we would appreciate if you could mention the following: “The mobility funding guides were initiated by the Asia Europe Foundation (ASEF) through its online portal culture360.asef.org”

2.2 ICCROM International Centre for the Study of the Preservation and Restoration of Cultural Property

Description: In the field of specialist conservation training, ICCROM has responded to the needs of its Member States by identifying areas of priority through consultation with them and cultural heritage experts. ICCROM training provides unique learning opportunities designed to meet the multiple and diverse expectations of institutions and professionals worldwide. ICCROM implements training through international and regional activities, structured on mid-term (6 years) and long-term (12 years) scale, with regular reviews.

International platforms are essential to test new information and methodologies in conservation, to advance teaching and learning strategies, and to identify new needs. Regional platforms are fundamental to strengthen local professional networks and where needed are required to develop and implement appropriate solutions, taking into account local resources and approaches.
